

Role: Dynamics CRM/365 Developer

Location: Barrie, ON (or Remote)

Company Overview

Sylogist is the parent company to a network of innovative companies that provide mission-critical ERP and CRM solutions, including fund accounting, case management, grant management and payroll, to public service organizations. Sylogist's customers include all levels of government, non-profit organizations, nongovernmental organizations, and educational institutions, as well as public compliance driven and funded companies.

Our team is collaborative, enthusiastic and delivers on our promises. If you want to apply your skills to improve trusted technology that supports over 2000 customers around the world, then let's talk! To learn more, check out our careers page at www.sylogist.com

Position Overview

As a D365/CRM developer at *pavliks.com, a division of Sylogist*, you will be an integral part of our software development professional services team. You will work on projects alongside other professionals such as project managers and functional consultants as well as other developers in a team-based collaborative environment. You will be building CRM/D365 solutions for clients across North America and Europe and support past clients which include high-profile organizations in the sports industry and national professional organizations representing thousands of members. You will be a part of a cohesive and strong team of experienced Software Developers and Dynamics CRM/365 consultants working remotely anywhere in Canada or locally from our Barrie office.

Responsibilities Include

- Customize and configure Dynamics CRM 2011,13,15,16, 365.
- Develop plugins and integration points.
- Configure web portal solutions using The Portal Connector.
- Collaborate with network engineers on both D365 CE in the Cloud and/or CRM on-premise architecture and installation.
- Research and analyze requirements to recommend solutions.
- Collaborate with Clients to ensure a successful implementation.
- Provide critical thinking and problem-solving services to Clients daily.

Desired Knowledge, Skills and Experience

- Bachelor's degree in computer science, Software Engineering, or college diploma in Software or Website Development
- Microsoft Dynamics CRM 2015, 2016 or 365 Certifications
- A minimum of 2 years' demonstrable developer experience for Junior positions with 5+ years' experience for Intermediate and more senior positions which includes experience in the following:
- Demonstrable practical and technical experience in a Microsoft Dynamics 365 CRM/xRM 2011/2013/2016
- Hands-on experience with the suite of Power Platform tools including: Power BI, Power Automate, AI Builder, Model and Canvas apps
- Demonstrable proficiency and experience using MS Dynamics CRM SDK for custom workflow activities, plug-ins and advanced client-side scripting
- Working knowledge of third-party tools; SSIS, Scribe or KingswaySoft and real-time integration with Dynamics 365 using web services.
- Knowledge of agile/waterfall project management methodologies.

- Experience writing technical documentation including technical specification.
- Experience in developing SQL queries and stored procedures using Transact SQL in SQL Server
- Experience with production support and troubleshooting, resolution of issues and/or complex production, application or system problems.
- Experience with Dynamics GP and/or Business Central (preferred)
- Experience in developing Portals and/or using The Portal Connector (preferred)
- Advanced critical thinking, problem solving skills, ability to coordinate with multiple teams and excellent oral and written communication skills
