- Links to projects to affect budgets

Our Employee Services is a modern, cloud-based employee self-service application. Can be accessed from all devices (Android or Apple) and computer.

## Introducing Time & Talent for Microsoft Dynamics 365 Business Central powered by Payroll by Sylogist.

Experience the unparalleled efficiency of Time & Talent by Sylogist, revolutionizing employee tracking, time tracking, leave management, and scheduling operations. Our comprehensive suite simplifies the complexities of employee management, empowering you to focus on driving your organization forward. Plus, it includes a modern, cloud-based self-service portal for your employees, granting them easy access to pay statements, tax documents, leave requests, change submissions, and organizational resources.

### Effortless Time and Attendance Tracking

Empower your employees with a user-friendly time-tracking solution that features an intuitive timesheet interface and a mobile app available on both the Apple App Store and Google Play. With advanced tools like geofencing, biometric authentication, and kiosk mode for fixed locations, employees can easily clock in and out, verify their identity and location, and document tasks using smartphones or dedicated devices.

### Scheduling & Attendance

Streamline employee time management with seamless scheduling and attendance tools that integrate leave requests and dynamic calendar-based planning. Employees can easily submit vacation, sick leave, or other absence requests, which managers can review and approve, with approved time off automatically reflected in payroll. The built-in calendar allows managers to define staffing needs by location, department, or role, assign shifts, and publish schedules, ensuring clarity and precision. Employees can access their assignments directly through the Time and Talent app, giving them clear visibility into their upcoming schedules and work locations.
